ONCOLOGY REVIEWS

Editor-in-Chief: Camillo Porta, Italy

Oncology Reviews is an Open Access, peer-reviewed, international journal that publishes authoritative state-of-the-art reviews on preclinical and clinical aspects of oncology.

The journal was previously published by Springer Italy; since 2012 Oncology Reviews passed to PAGEPress.

The journal will provide up-to-date information on the latest achievements in different fields of oncology for both practising clinicians and basic researchers. Oncology Reviews aims at being international in scope and readership, as reflected also by its Editorial Board, gathering the world leading experts in both pre-clinical research and everyday clinical practice.

The journal is open for publication of supplements, monothematic issues and for publishing abstracts of scientific meetings; conditions can be obtained from the Editor-in-Chief or the publisher.
